

AI Tools for Today's CTE Classrooms

Join us for an all-new, full-day workshop created specifically for Career and Technical Education (CTE) teachers eager to stay ahead of the curve in the fast-changing world of Artificial Intelligence (AI). Presented by Digital Learning Services in collaboration with San Bernardino County ROP, this year's session will highlight updated features, new tools, expanded applications, and real-world CTE use cases that reflect the latest trends in AI and education. Whether you're building on what you learned last year or joining us for the first time, you'll explore how today's most advanced AI tools can support instruction, boost engagement, and streamline your workflow.
