

ADVANCED DRONE PILOT TRAINING

Offered by SBC ROP in partnership with UAS at SBD

Take your drone skills to the next level with hands-on, scenario-based flight training. Designed for FAA-certified pilots, this instructor-led course builds precision and confidence for complex UAS operations.

FAA Compliance: Stay current on waivers, legal updates, and flight regulations

Camera Control: Master advanced photo, video, and mapping techniques

Mapping & Modeling: Create 3D orthomosaics using industry software

Course Fee: \$100
