

# Future-Ready Teaching with AI by Rachael Mann

Prepare your students for an AI-driven future with this interactive, one-day workshop. Explore the latest trends in artificial intelligence, examine its impact on teaching and the workforce, and learn practical strategies for integrating AI while addressing AI literacy, ethics, and data privacy.

In this workshop, you'll team up with fellow educators in a Back to the Future-themed digital escape room, solving puzzles and racing to outsmart Dark GPT-88 to rescue Doc Brown's digital twin. This immersive challenge brings AI concepts to life and provides ready-to-use approaches for your classroom.

Presented by Rachael Mann, Top 30 Global Guru in Education, author, and founding member of the Council on the Future of Education. You'll leave with new insights and ready-to-use tools to prepare students for success in an AI-driven world.

**Friday, January 23, 2026**

8:30 to 3:00 PM

**Dorothy Inghram Learning Center**

670 E Carnegie Dr. San Bernardino 92408
